

# ARCERA

## PARTNER WITH US

*Manufacturing & Licensing  
solutions*

ARCERA

Transforming *life sciences*,  
globally and sustainably.

Arcera is an international life sciences company dedicated to enabling longer, healthier lives and driving sustainable growth by delivering innovative and proven medicines to patients in over 120 international markets.

# Enable longer and healthier lives, while creating sustainable growth

## Health for All

Put patients first, **expand access** to health and wellbeing solutions, today and for generations to come.

## Value Creation

Innovate in science, commerce and manufacturing to unlock value and **deliver strong returns** for our shareholders.

## Greater Impact

Strengthen our portfolio while progressing towards **breakthrough solutions**.

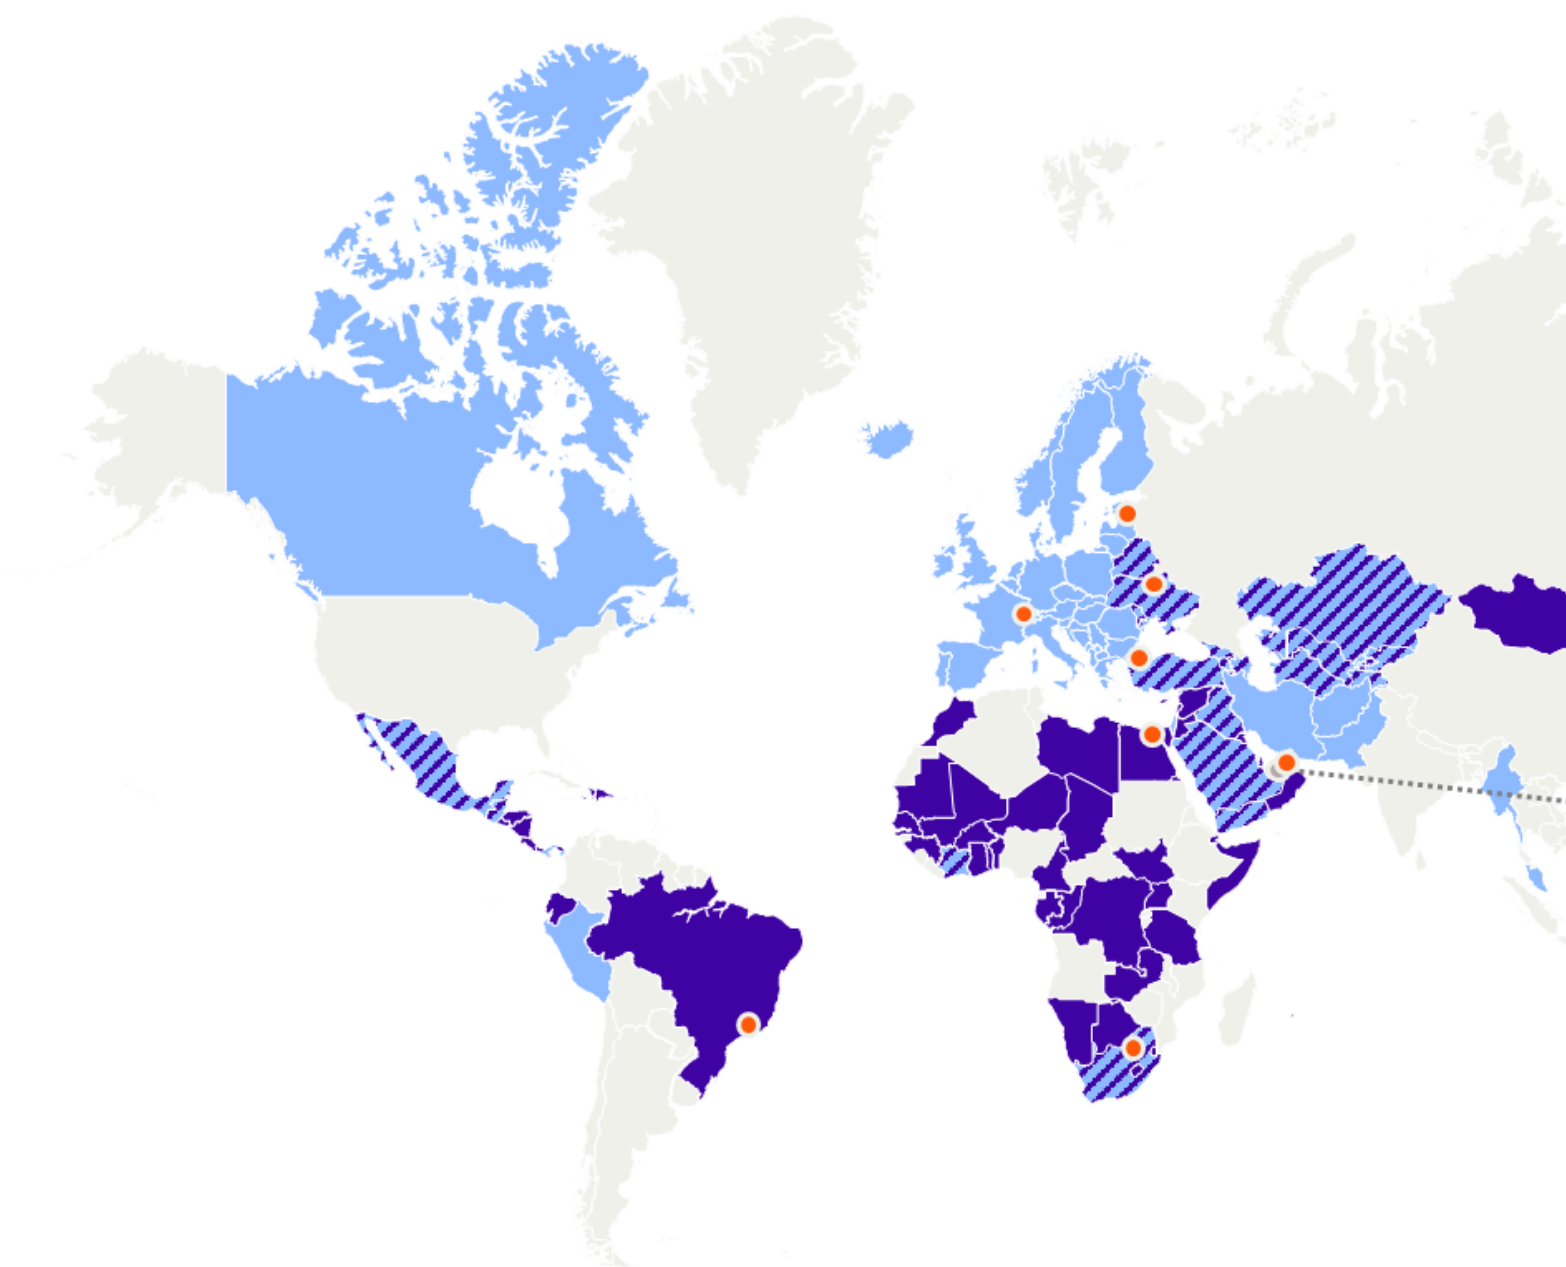

## UAE as a Hub

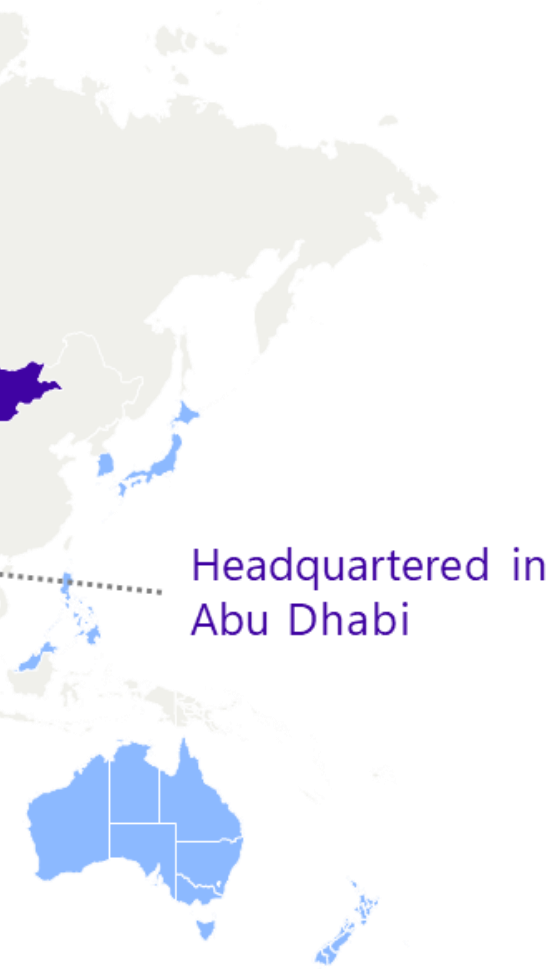

Foster a vibrant **life sciences ecosystem** that drives economic and social impact in the emirates and beyond.

# Arcera at a glance, today!

We develop, manufacture, and commercialize proven and innovative medicines.

- Manufacturing & packaging sites
- Commercial markets
- Business to business
- ▨ Both

**6,000+**

People reaching patients in  
**120+ countries**

**2,000+**

Medicines with  
**100+ top brands**

**8**

Locations with **manufacturing  
and packaging** sites

**ARCERA**

# Our focus areas

## Therapeutic Innovation

Driving advancements in high-growth, **science-led therapeutic areas**.

## Flexible Partnership Model

Open to **product acquisition, in-licensing, M&A and joint ventures** to unlock mutual benefits.

## Sustainable Value

Focused on **long-term impact** for patients, partners, and communities.

## Partner-Centricity

Collaborative mindset, with a strong record of forming **strategic alliances**.

## Scalable Platform

Built to integrate, scale, and accelerate **partner-driven growth**.

ARCERA

# Arcera as a trusted partner

## **Broaden commercial access**

Strong commercial platform across **high-growth global markets** leveraging our supply chain and market access commercial capabilities.

## **Accelerate sales performance**

Proven high-performance **go-to-market capabilities and commercial excellence**, leveraging local expertise and global reach.

## **Best-in-class compliance and patient safety**

Leverage our proven **medical, regulatory and PV expertise**, validated through successful audits and trusted by global partners and professional bodies.

## **Leverage strong manufacturing expertise**

Scalable and sustainable **manufacturing and packaging** operations with a focus on quality, supply resilience, and cost efficiency.

# One network

## Eight strategic locations

### 1 Ukraine (Kyiv)

Value chain steps	Product development
	Bulk production
	Blistering
	Secondary packaging
Batch release	
Product technologies	Solid (tablets, capsules)
Capacity	<b>~2,000M units, ~45M packs</b>

### 2 Switzerland (Liesberg & Aesch)

Value chain steps	Bulk production
	Blistering
	Secondary packaging
	Batch release
Product technologies	Solid (tablets, capsules, mini-tablets in capsules)
Capacity	<b>~5,000M units, ~200M packs</b>

### 3 Egypt (Cairo)

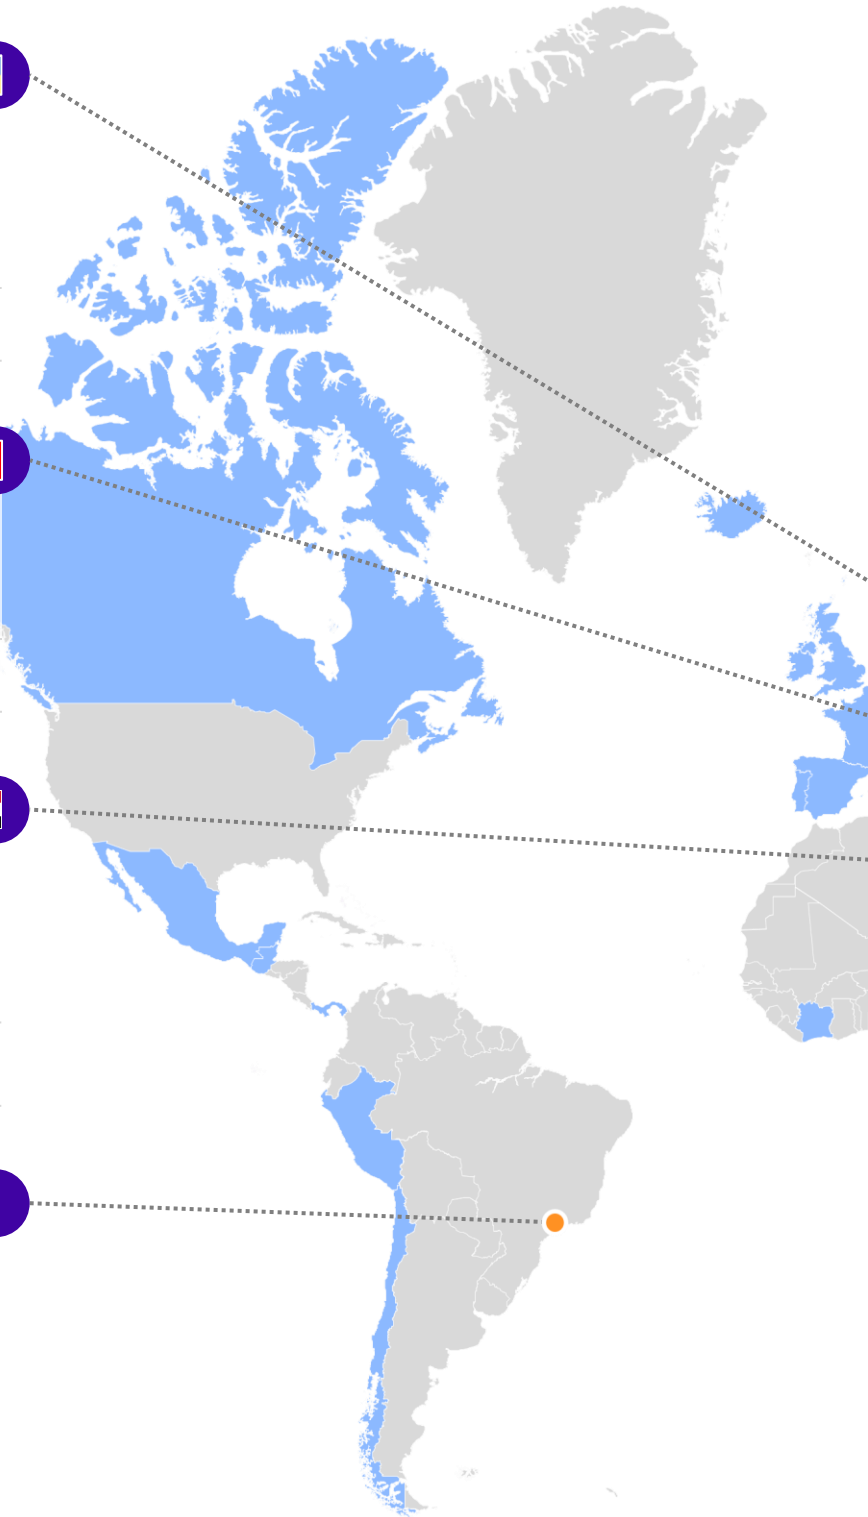

Value chain steps	R&D
	Production (multi-format)
	Primary packaging
	Secondary packaging
	Batch release
Product technologies	Solid, semi-solid, sterile, B-lactam, veterinary
Capacity	<b>~2,500M units, 345M packs</b>

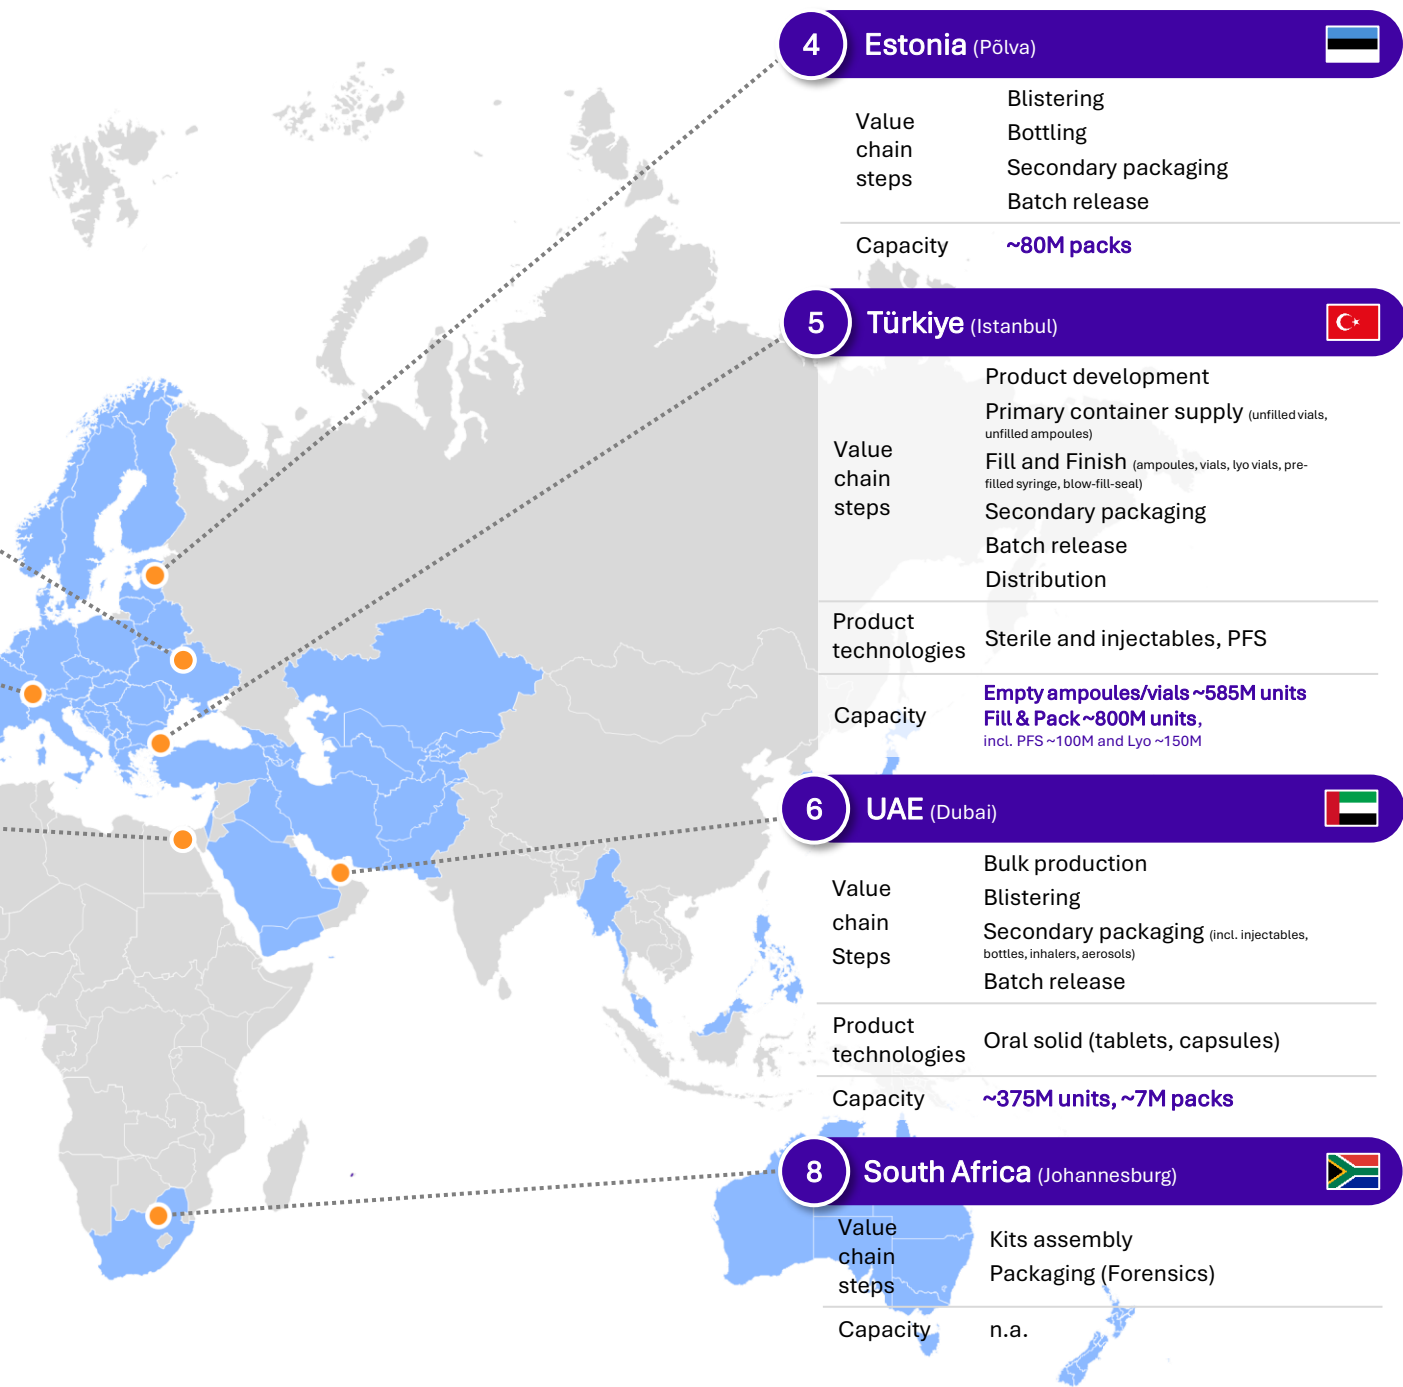

### 7 Brazil (Guarulhos)

Value chain steps	One packaging line (not operational; kept for localization)
-------------------	---

# One network

## Detailed CMO capabilities

Forumulation	Service	Process
OSD	Granulation/Pelletisation	Wet (aqueous & organic) granulation
OSD	Granulation/Pelletisation	Dry granulation
OSD	Granulation/Pelletisation	Melt granulation
OSD	Granulation/Pelletisation	Fluid-bed & high shear granulation
OSD	Granulation/Pelletisation	Direct compression
OSD	Granulation/Pelletisation	Extrusion / Spheronization
OSD	Granulation/Pelletisation	Pellet layering in fluid bed process
OSD	Granulation/Pelletisation	Coating of pellets
OSD	Granulation/Pelletisation	Fluid-bed and tray drying
OSD	Granulation/Pelletisation	Tray drying
OSD	Granulation/Pelletisation	Sieving / blending
OSD	Granulation/Pelletisation	Compaction (Roller compactor)
OSD	Granulation/Pelletisation	Top spray granulation in FBP
OSD	Finished Dosage Form	Modified-release tablets (MUPS & Matrix tablets)
OSD	Finished Dosage Form	Film coated- or dispersible-tablets
OSD	Finished Dosage Form	Printed tablets
OSD	Finished Dosage Form	Modified release capsules
OSD	Finished Dosage Form	Mini-tablets in capsules
OSD	Finished Dosage Form	Liquid filled capsules
OSD	Finished Dosage Form	Controlled substance
OSD	Finished Dosage Form	Sugar coated tablets
OSD	Finished Dosage Form	Lozenges
OSD	Primary Packaging	Blister packaging
OSD	Primary Packaging	Controlled substances packaging (AP & AE)
OSD	Primary Packaging	Packaging of potent OSDs
OSD	Primary Packaging	Bottles (glass, plastic, aluminium) with different caps
OSD	Primary Packaging	Unit dose blister
OSD	Primary Packaging	Peel-off blister
OSD	Secondary Packaging	Standard secondary packaging (for packs & bottles)
OSD	Secondary Packaging	PIL-packages
OSD	Secondary Packaging	Artwork management
OSD	Secondary Packaging	Serialization & aggregation
OSD	Secondary Packaging	Warehousing & logistics
OSD	Secondary Packaging	Non-standard secondary packaging (semi-automatical and manual packaging)
OSD	Secondary Packaging	Semisolid, soft gel capsule, inhalers, aerosols, respules etc.
Steriles	Primary packaging manufacturing	Empty ampoules
Steriles	Primary packaging manufacturing	Empty vials
Steriles	Sterile injectables	Ampoules
Steriles	Sterile injectables	Vials
Steriles	Sterile injectables	Pre-filled-syringes (PFS)
Steriles	Sterile injectables	Blow-fill-seal (BFS)
Steriles	Sterile injectables	Lyophilized ampoules
Steriles	Sterile injectables	Lyophilized vials
Steriles	Sterile injectables	Cartridges
Steriles	Packaging	Secondary packaging
Steriles	Packaging	Serialisation
Steriles	Packaging	Labelling
Steriles	Packaging	Stock quarantine
Steriles	Packaging	Cold chain management
