Instructions for use¹ of Trivacin transdermal patch (Rivastigmine transdermal patch)

- These instructions for use and medication record sheets are essential to ensure the safe and effective use of Trivacin transdermal patch.
- If you have any questions or require more information, please read the package information leaflet that came with the medicine.
- If you are not sure about anything, please ask your doctor or pharmacist.

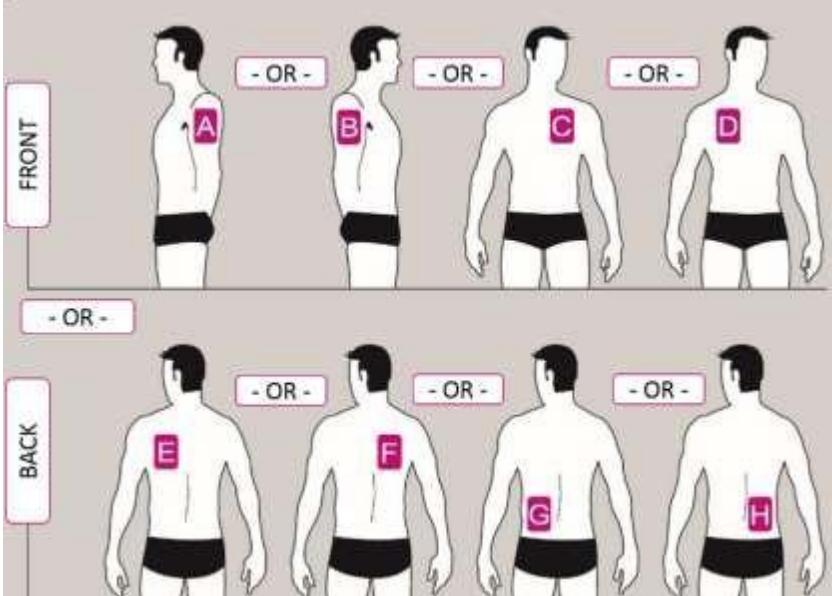

Important to follow	How to apply the Trivacin patch	Where to apply the Trivacin patch
<p>Take off the previous patch before putting one new patch on!</p> <p>Only one patch per day!</p> <p>Do not cut the patch into pieces!</p> <p>Press the patch firmly in place for at least 30 seconds using the palm of the hand!</p>	 <p>1. Carefully remove the existing patch before putting on one new patch.</p>  <p>2. Cut the sachet at both scissors marks, but not further than the indicated line. Tear the sachet to open. Take out the patch from the sachet and remove the cover sheet from the skin colored side.</p>  <p>3. Peel off one side of the protective liner and do not touch the sticky part of the patch with the fingers.</p>  <p>4. Put the sticky side of the patch on the selected area and then peel off the second side of the protective liner.</p>  <p>5. Then press the patch firmly in place for at least 30 seconds using the palm of the hand to make sure that the edges stick well.</p>	<p>Remove the previous day's patch before you apply the new one.</p> <p>Apply one new patch in one of the following zones every day.</p> <p>You can use the same zone (A or B or C or D or E or F or G or H), but do not use the same exact spot within the same zone.</p>  <p>Do not apply a new patch to that same skin area twice within 14 days.</p>

1 - refer also to package leaflet and summary of product characteristics
